Bidonow

February 2022 - December 2022, Florida, USA

- Developed their Responsive and Functional Front-end with ReactJS.
- Skilled at working independently and collaboratively in a team environment.
- Developed strong organizational and communication skills through coursework and volunteer activities.
- Demonstrated respect, friendliness and willingness to help wherever needed.
- Worked flexible hours across night, weekend and holiday shifts.

PROJECTS

NatureCamp

- Introducing my full stack camping and nature reserve website
- It is secured using Helmet and other packages to defend XSS and other types of attack.
- It has the fully authentication and authorization features.
- Built using JS, Node.js, MongoDB, Express.js.
- Allows users to register, sign in, and create campground listings, as well as perform other CRUD operations
- User-friendly interface
- Utilizes Mapbox for interactive mapping
- Utilizes Cloudinary for easy management of images
- MongoDB and Express handle large amount of data, providing a seamless experience for users
- Live Demo: <https://naturecamp.onrender.com/> (Hosted on free package, first opening take few seconds)
-

Jobify

- Introducing my full stack web application built with the MERN Stack
- Helps users speed up their job hunting process
- Features include user registration, sign in, updating user information, creating job listings, and other CRUD operations
- It is has security features against several types of attacks
- The authentication and authorization functionalities are fully considered here
- Used Reacharts for drawing charts from the real data fetched from express server.
- Used Style Components(CSS in JavaScript) for the styling.
- Live Demo: <https://jobapp-mern.onrender.com/>

EDUCATION

Bachelor of Civil Engineering

University College of Engineering, Osmania University • Hyderabad, India • 2022
